*If you need wired network service, please provide location plan:

*If you need Wi-Fi service, please provide it:

Wi-Fi Name (SSID):

Wi-Fi Password :

(8 digit code)

*The wireless network speed limit for each device is 10M/10M ; Wired network provides DHCP *

*By renting this service, you agree to the Taipei International Convention Center Internet Business Rental Agreement Terms

*Lease optical fiber network from telecom operators (download speed above 100M),Because the telecom operator's fiber optic network is not deployed in each conference room, it is necessary to rent fiber optic backbone jumper services in the computer room.

If you need customized project network services, please contact the contact person at the Taipei International Convention Center network service window.
